New Charge Code File Layout

In 2015, the new charge code schema will be implemented. There will be 3 charge code CSV (comma delimited) files that correlate with the 3 datasets that were emailed out in the past. They will be available for download on the Patrol website at: http://www.mshp.dps.missouri.gov under the Missouri Charge Code Manual. Only the most current version will be available. Both active and inactive charge codes will be included. The names will be NCIC CSV yyyy-mm-dd, Charge Code CSV yyyy-mm-dd, and NCIC Modifiers CSV yyyy-mm-dd, where yyyy is year created, mm is month created and dd is day created. The date part will change each time new files are created.

The fields are listed in the order they will be on each file along with a sample. Fields will be variable length with no padding and separated by a comma.

New Charge Code File Layout

NCIC Modifiers CSV yyyy-mm-dd (HP01K835.MOD in the past)

Field Name	Max Length	Comment
NCIC Category	2	A coded value used by NCIC to categorize a crime. Will only contain values valid for this charge code.
NCIC Range	2	A further classification of the NCIC Category. Will only contain values valid for this charge code.
Old Charge Code	5	The old charge code for an offense. Was replace with the New Charge Code in 2015. Will no longer be assigned to new charges after 2015.
New Charge Code	23	New Field. The new charge code for an offense implemented in 2015. Will replace the Old Charge Code.

Sample data:

01,01,30010,576.070-001Y197501
01,02,30010,576.070-001Y197501
01,03,30010,576.070-001Y197501
01,04,30010,576.070-001Y197501
01,05,30010,576.070-001Y197501
01,99,30010,576.070-001Y197501

NOTE: Each Charge Code record could have multiple NCIC Modifier records associated with the same Charge Code. For example, Old Charge Code 30010/ New Charge Code 576.070-001Y197501, has the following NCIC Modifier value associated with it: 0101, 0102, 0103, 0104, 0105, 0199.

In the future, once the old charge code format is no longer assigned, the Old Charge Code will be blank for those charges. If a code had been assigned, that value will still be in the Old Charge Code.
