FOREWORD

This publication has been produced by the Missouri State Highway Patrol Statistical Analysis Center. It is intended to provide a basic understanding of Missouri's crime problems, their characteristics, and the law enforcement actions being taken to address these problems.

In 2001, the Uniform Crime Reporting Program, maintained by the Missouri State Highway Patrol, began operation. It is the Program's responsibility to collect, maintain, and insure the integrity of Missouri crime statistics. In addition, it also is responsible for reporting monthly crime statistics to the Federal Bureau of Investigation, Uniform Crime Reporting Section.

I encourage all criminal justice and other public officials to review this publication. If additional research or statistical information services about Missouri's crime or traffic safety problems are needed, please contact our agency's Statistical Analysis Center for assistance.

R. D. STOTTLEMYRE, Superintendent
Missouri State Highway Patrol

ACKNOWLEDGEMENTS

For the past several years, the Missouri State Highway Patrol, Uniform Crime Reporting (UCR) Program and Statistical Analysis Center have worked with a number of agencies to move Missouri from a voluntary to a mandatory crime reporting system as mandated by RSMo43.505. The Missouri Department of Public Safety led this initiative and their financial support to SAC and the UCR Program is appreciated. The direction and efforts of Joe Johnson and Laurie Crawford of the Missouri State Highway Patrol were instrumental to the success of the UCR Program.

Missouri law enforcement agencies who submitted crime and employment information to the UCR Program played a critical role in development of this report. Their participation in this Program is indicative of their desire to improve Missouri's law enforcement information capabilities.

Recognition also is given to the Federal Bureau of Investigation, Uniform Crime Reporting Section and the U.S. Department of Justice, Bureau of Justice Assistance for their guidance during implementation of the Missouri UCR Program. Over the past years, the U.S. Department of Justice, Bureau of Justice Statistics has supported, through grant funds, the Missouri SAC's efforts to provide publications like *Crime in Missouri* and other information services to the Missouri criminal justice community. Their financial support and technical assistance are appreciated.

Ronald G. Beck, Director

EXECUTIVE SUMMARY

This Digest is produced annually by the Missouri State Highway Patrol (MSHP), Statistical Analysis Center (SAC). In the past, the primary source of data has been from law enforcement agencies who voluntarily submitted crime statistics to the Federal Bureau of Investigation's (FBI) Uniform Crime Reporting Program (UCR). Since only a small percentage of agencies submitted data directly to the FBI's UCR Program, the SAC relied on statistical estimates to measure the extent of crime in Missouri. Beginning in 2001, Missouri's Uniform Crime Reporting Program (UCR) began operation. Statutorily, Missouri law enforcement agencies are required to submit their crime statistics to Missouri's UCR Program. Using these data, the SAC no longer has to rely on statistical estimates. When comparing crime statistics for 2001 and prior years, users need to keep in mind two different statistical methods were employed to derived Missouri's crime totals.

In addition to crime index offense and arrest data, this publication contains data on domestic violence incidents, officers killed or assaulted in the line of duty, and law enforcement employment levels in the State of Missouri.

The Crime Index is the sum of eight major offenses and is used to measure the magnitude of crime in the United States. The major offenses are included in the Index because of their frequency of occurrence and the fact that they are most likely to be reported to law enforcement agencies. These eight offenses are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. The first four make up the Violent Crime Index and the last four make up the Property Crime Index.

In 2001, 274,605 Crime Index offenses were reported in the State of Missouri. In 2001, one Index Crime was committed every 1.9 minutes. In 29.3 of every 100 Crime Index offenses, the cases were cleared by arrest or exceptional means.

Violent offenses made up 11.4 percent of the total 2001 Missouri Crime Index. There were 31,271 Violent Index offenses reported in 2001. A violent offense was committed in Missouri every 17.0 minutes. In 49.8 of every 100 Violent Index offenses, the cases were cleared by arrest or exceptional means. A brief analysis of each type of Violent Index offense is given below.

- There were 399 murders reported in 2001. While murder is the most serious Index offense, it made up only 0.1 percent of the total 2001 Missouri Crime Index. One murder was committed in the State every 22.6 hours. In 68.2 of every 100 murders, the cases were cleared by arrest or exceptional means.
- There were 1,396 forcible rapes reported in 2001. Forcible rape accounted for 0.5 percent of the total 2001 Missouri Crime Index. One forcible rape was committed every 6.4 hours. In 45.8 of every 100 forcible rapes, the cases were cleared by arrest or exceptional means.
- There were 7,802 robberies reported in 2001. Robbery accounted for 2.8 percent of the total 2001 Missouri Crime Index. One robbery occurred every 1.1 hours. In 24.5 of every 100 robberies, the cases were cleared by arrest or exceptional means.
- There were 21,674 aggravated assaults reported in 2001. Aggravated assault accounted for 7.9 percent of the total 2001 Missouri Crime Index. One aggravated assault occurred every 24.6 minutes. In 58.8 of every 100 aggravated assaults, the cases were cleared by arrest or exceptional means.

Property offenses made up 88.6 percent of the total 2001 Missouri Crime Index. There were 243,334 Property Index offenses reported in 2001. Property offenses accounted for \$349,612,061 in property stolen or destroyed. One such offense occurred every 2.2 minutes in the State. In 17.5 of every 100 Property Index offenses, the cases were cleared by arrest or exceptional means. A brief analysis of each type of Property Index offense is given below.

- There were 43,367 burglaries reported in 2001. Burglary accounted for 15.8 percent of the total 2001 Missouri Crime Index. One burglary occurred every 12.2 minutes and \$62,128,652 in property / cash was stolen in 2001 due to this offense. In 14.5 of every 100 burglaries, the cases were cleared by arrest or exceptional means.

- There were 169,086 thefts reported in 2001. Theft accounted for 61.6 percent of the total 2001 Missouri Crime Index. One theft occurred every 3.1 minutes and \$97,021,570 in property / cash was stolen in 2001 due to this offense. In 18.3 of every 100 thefts, the cases were cleared by arrest or exceptional means.
- There were 28,329 motor vehicle thefts reported in 2001. Motor vehicle theft accounted for 10.3 percent of the total 2001 Missouri Crime Index. One motor vehicle theft occurred every 18.7 minutes and \$170,832,615 in property was stolen in 2001 due to this offense. In 15.9 of every 100 motor vehicle thefts, the cases were cleared by arrest or exceptional means.
- There were 2,552 arsons reported in 2001. Arson accounted for 0.9 percent of the total 2001 Missouri Crime Index. One arson occurred every 3.1 hours and \$19,629,224 in property was destroyed due to arson in 2001. In 21.7 of every 100 arsons, the cases were cleared by arrest or exceptional means.

In 2001, law enforcement agencies in Missouri reported 29,925 incidents of domestic violence. These included:

- 9,227 incidents of spousal abuse.
- 7,705 incidents between individuals living together.
- 4,638 incidents between blood relatives.
- 2,900 incidents between individuals who have lived together in the past.

In 2001, four officers were killed feloniously and four were killed accidentally in the line of duty in the State of Missouri.

INTRODUCTION

This Digest is one in a series of publications prepared by the Missouri State Highway Patrol, Statistical Analysis Center (SAC). It is designed to present data on crime and arrest activity in Missouri from 1992 through 2001 with special emphasis on the most recent year's crime and arrest activity (2001).

The crime and arrest data in this publication are segmented into ten parts. The first section displays the Missouri Crime Clock. This clock offers an overview of the frequency of occurrence of Crime Index offenses committed in the State in relation to time. The Crime Index is the sum of the eight major offenses used to indicate the occurrence of crime in the United States. The eight offenses making up the total Crime Index are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. The second section provides data related to Crime Index offenses committed in the State of Missouri. Its purpose is to provide a comparison of the various types of Crime Index offenses so their relative importance can be assessed. In addition, Crime Index activity is displayed by geographical regions of the State and also over time to observe trends. The third section presents data on arrest activity and clearance rates associated with Crime Index offenses as well as arrest activity associated with other classes of criminal offenses. These data provide an appreciation of criminal enforcement activity being performed in the State by class of crime. The fourth section provides a series of data and analysis related to each of the eight types of Crime Index offenses. Data are provided on crime activity, clearance rates, crime patterns, and arrest activity associated with each of these offenses. The fifth section provides summary data on Crime Index offenses and arrest activity for specific political subdivisions in the State. Section six provides summary data on domestic violence incidents committed in Missouri and identifies relationships between domestic violence victims and offenders. Sections seven and eight provide summary data on law enforcement officers killed and assaulted while on duty. Section nine provides uniform and civilian employment information for Missouri law enforcement agencies. Section ten provides data on law enforcement employees as well as the number of assaults on sworn personnel for specific political subdivisions in the State.

Prior to 2001, data in this Digest were provided on a voluntary basis by Missouri law enforcement agencies to the Federal Bureau of Investigation's (FBI), Uniform Crime Reporting (UCR) Program. In 2001, state statute RSMo43.505 was enacted requiring Missouri law enforcement agencies to report their UCR crime statistics to the Missouri UCR Program administered by the Missouri State Highway Patrol.

Increases in crime activity may reflect the transition from a voluntary to mandatory UCR Program. Care is warranted when directly comparing crime statistics between 2001 and previous years for this reason.

The national UCR Program was initiated in 1930 by the Committee on Uniform Crime Reports of the International Association of Chiefs of Police (IACP). This committee developed uniform offense and arrest classifications as well as reporting procedures which could be used by law enforcement agencies throughout the nation. The FBI was designated to administer the Program and became the national clearinghouse for UCR data. The Committee on Uniform Crime Reports of the IACP continues to serve the national Program in an advisory capacity. In 1966, the National Sheriff's Association also established a Committee on Uniform Crime Reports to act as an advisory body for this program and to promote reporting to the UCR Program.

Crime and arrest data are, for the most part, collected on a monthly basis by several methods in Missouri. The Missouri UCR Program provides report forms, tally sheets, and self-addressed envelopes to Missouri law enforcement agencies who complete and return them to the Program. Missouri city and county law enforcement agencies also have the option of reporting their crime activity on a Web-based UCR reporting application where State law enforcement agencies utilize an electronic spreadsheet to report their monthly crime activity. Data from all Missouri law enforcement agencies are moved to a central data repository maintained by the MSHP.

Not all Missouri law enforcement report twelve months of summary crime data. To reduce the problems associated with both non-reporting and incomplete reporting, a number of techniques have been used for displaying statewide crime and arrest activity. For statewide arrest activity, reliance has been placed on displaying arrest rates on a per 100,000 population basis. This type of data display identifies arrest activity in relation to the population of only those jurisdictions reporting the activity. For statewide crime activity, mathematical routines have been employed to estimate the actual number of crimes in the State. The similarity between 2001 crime estimates and actual reported crime is reflective of the high compliance rate of law enforcement agencies in Missouri to RSMo43.505, requiring law enforcement agencies to

report their crime statistics to the UCR Program. Crime rates on a per 100,000 population basis also are included. These rates are based on estimates of actual crimes being committed rather than on those reported. Individual data displays in the Digest fully identify whether reported, estimated, or rates per 100,000 population data are used in the display.

Data displays identifying specific political subdivision crime and arrest activity contain only the activity reported to the UCR Program. No effort has been made to estimate individual law enforcement agency's crime and arrest activity. It is important to note that statistics for a political subdivision include not only crime and arrest activity reported by a local law enforcement agency, but also crime and arrest activity reported by state agencies (e.g., MSHP, Department of Conservation, Water Patrol).

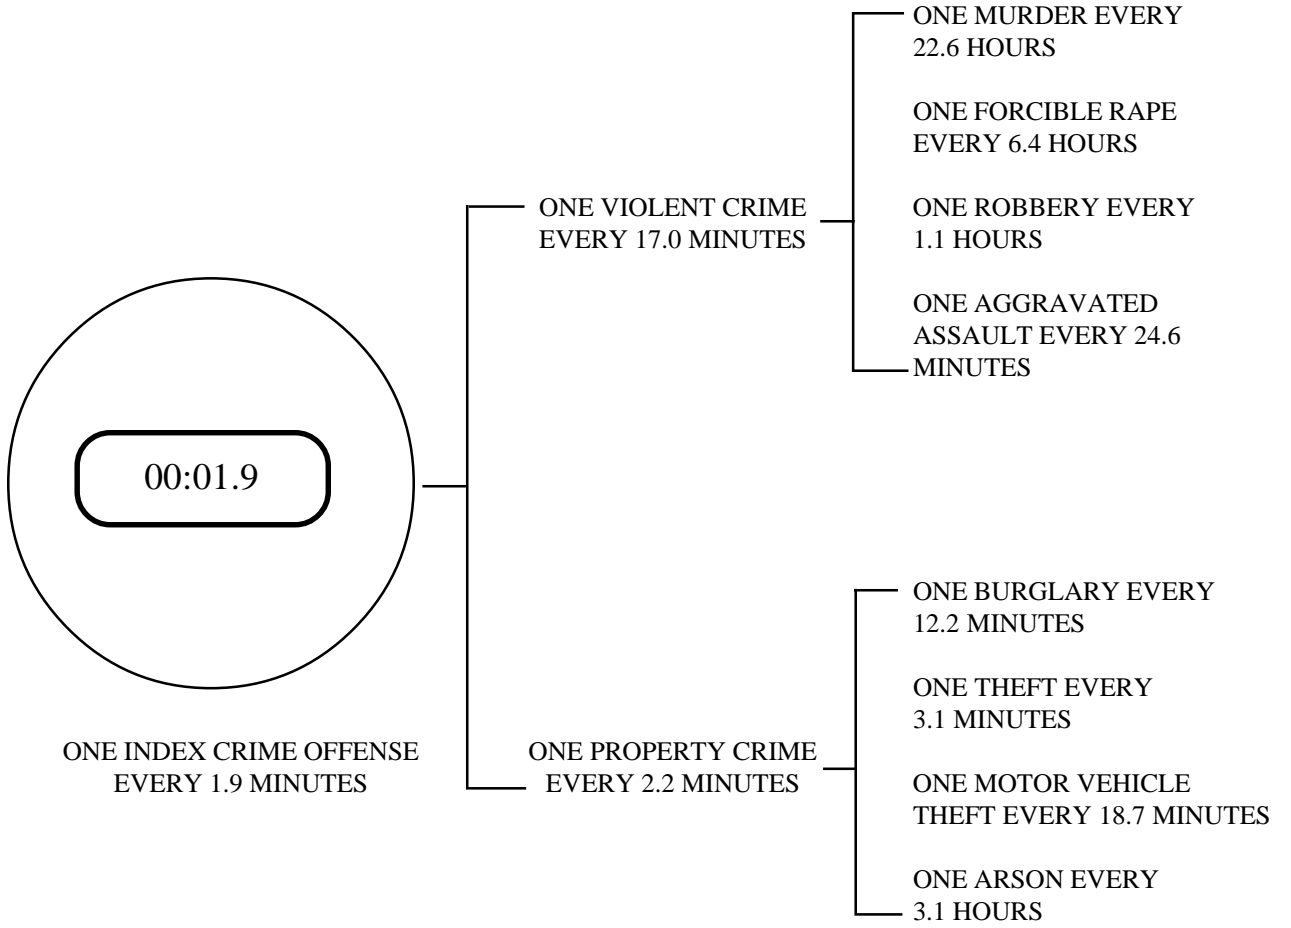

Slight discrepancies may be found if comparisons are made with FBI UCR publications and this Digest covering the same subject matter for the State of Missouri. Although similar, estimation routines and rates per 100,000 population calculations used by the FBI are not the same as those used in this Digest. Discrepancies also may be noted when examining actual reported figures. This is a result of updates having been made to UCR files between the time the FBI data were processed and the time the SAC analysis was performed. This report is merely a snap shot of crime summary data reported to the Missouri UCR Program. Law enforcement agencies continually update their UCR data for a variety of reasons. For this reason, statistics in this report may be different than statistics obtained from other sources or reports.

1.0 MISSOURI CRIME CLOCK

THE CRIME CLOCK SUMMARIZES ESTIMATED CRIMINAL ACTIVITY IN THE STATE OF MISSOURI DURING 2001 IN RELATION TO TIME. FROM THIS PERSPECTIVE, AN APPRECIATION OF THE RELATIVE FREQUENCY OF VARIOUS CRIMINAL OFFENSES CAN BE OBTAINED. THE CRIME CLOCK SHOULD BE VIEWED WITH CARE. IT IS DESIGNED TO CONVEY ANNUAL ESTIMATED CRIME EXPERIENCE BY SHOWING THE RELATIVE FREQUENCY OF OCCURRENCE OF THE INDEX OFFENSES. THIS MODE OF DISPLAY SHOULD NOT BE TAKEN TO IMPLY A REGULARITY IN THE COMMISSION OF CRIME; RATHER, IT REPRESENTS THE ANNUAL RATIO OF CRIME TO FIXED TIME INTERVALS.

MISSOURI CRIME CLOCK

2001

2.0 MISSOURI CRIME INDEX COMPARISON ANALYSIS

A SERIES OF TABLES AND FIGURES SUMMARIZES CRIME INDEX OFFENSES COMMITTED IN THE STATE OF MISSOURI. THE PURPOSE OF THESE DISPLAYS IS TO COMPARE THE VARIOUS TYPES OF CRIME INDEX OFFENSES BEING COMMITTED ACCORDING TO THEIR RELATIVE CONTRIBUTION TO THE CRIME INDEX. IN ADDITION, CRIME INDEX OFFENSE RATES ARE DISPLAYED BY GEOGRAPHICAL REGIONS OF THE STATE AND OVER TIME IN ORDER TO OBSERVE TRENDS.

CRIME INDEX OFFENSES^{1,2}
STATE OF MISSOURI
2001

OFFENSE	REPORTED	ESTIMATED ¹	% OF ESTIMATED TOTAL CRIME INDEX	% OF ESTIMATED VIOLENT CRIME INDEX	% OF ESTIMATED PROPERTY CRIME INDEX	RATE PER ² 100,000 POPULATION
TOTAL INDEX	274,605	274,996	100.0	--	--	4,953.8
VIOLENT INDEX	31,271	31,352	11.4	100.0	--	564.7
PROPERTY INDEX	243,334	243,644	88.6	--	100.0	4,389.1
MURDER	399	399	0.1	1.3	--	7.2
FORCIBLE RAPE	1,396	1,400	0.5	4.5	--	25.2
ROBBERY	7,802	7,818	2.8	24.9	--	140.8
AGGRAVATED ASSAULT	21,674	21,735	7.9	69.3	--	391.5
BURGLARY	43,367	43,444	15.8	--	17.8	782.6
THEFT	169,086	169,292	61.6	--	69.5	3,049.7
MOTOR VEHICLE THEFT	28,329	28,357	10.3	--	11.6	510.8
ARSON	2,552	2,552	0.9	--	1.0	46.0

¹ Beginning in 2002, RSMo43.505 required all law enforcement agencies in Missouri to report their crime statistics to the Missouri State Highway Patrol - Uniform Crime Reporting Section. Due to the high compliance rate, 2001 estimates will closely resemble 2001 actual crime totals.

² Crime Index Offense rates are based on estimated crime index offenses in the State of Missouri. They are computed on a per 100,000 population basis. See Glossary for explanation of the computations used to obtain these rates.

See Glossary for explanation of the computations used to obtain estimates of Missouri's Crime Index offenses.

AGGRAVATED ASSAULT	462.5	456.6	463.5	420.4	384.5	377.3	368.3	337.2	323.7	391.5
BURGLARY	1,101.1	1,030.8	1,057.4	935.4	880.4	870.1	868.9	776.2	746.7	782.6
THEFT	2,757.0	2,801.6	3,013.2	3,040.7	3,139.8	2,887.3	2,947.2	2,885.7	2,853.7	3,049.7
MOTOR VEHICLE THEFT	498.0	550.8	513.6	473.8	445.9	491.0	451.1	421.5	442.8	510.8
ARSON	47.4	43.6	44.6	44.6	43.0	42.0	39.3	38.9	40.7	46.0

¹ Prior to 2001, Missouri law enforcement agencies voluntarily reported crime index offense data. To account for non-reporting agencies, Crime Index Offense Rates for these years were based on mathematical estimates. In 2001, RSMo43.505 mandated all Missouri law enforcement agencies to report crime index offense data to the Missouri Uniform Crime Reporting Program managed by the Missouri State Highway Patrol. For this reason, 2001 Crime Index Offense Rates were based on data reported by nearly 100% of Missouri law enforcement agencies. Users should keep in mind that transition from a voluntary to a mandatory crime reporting system may affect comparisons of 2001 Crime Index Offense rates to prior years.

² Crime Index Offense Rates are computed on a per 100,000 population basis.

See Glossary for explanation of the computations used to obtain these rates.

TABLE 2.0.4

PROPERTY CRIME INDEX
ECONOMIC ANALYSIS
(PROPERTY STOLEN / DESTROYED)

2001

TYPE	LOSS PER ¹ OFFENSE	TOTAL ² LOSS
BURGLARY	\$1,426.24	\$62,128,652
THEFT	572.17	97,021,570
MOTOR VEHICLE THEFT	6,017.02	170,832,615
ARSON	7,655.49	19,629,224
TOTAL	-----	\$349,612,061

¹ Dollar loss per offense is calculated using only those property offenses for which law enforcement agencies reported an actual dollar amount for the property stolen or destroyed.

² Total loss is calculated by multiplying the dollar loss per offense by the number of such offenses in 2001.

3.0 MISSOURI ARREST ANALYSIS

A SERIES OF TABLES AND FIGURES SUMMARIZES MISSOURI CRIME INDEX ARREST CLEARANCE RATES, ACTUAL ARREST ACTIVITY ASSOCIATED WITH CRIME INDEX OFFENSES, AND ARREST ACTIVITY ASSOCIATED WITH ALL OTHER CLASSES OF CRIMINAL ACTIVITY REPORTED TO THE UCR SYSTEM. THE PURPOSE OF THESE DISPLAYS IS TO PROVIDE AN OVERVIEW OF CRIMINAL ENFORCEMENT ACTIVITY BEING PERFORMED IN THE STATE OF MISSOURI BY CLASS OF CRIME. IN ADDITION, ARREST RATES ARE DISPLAYED OVER TIME IN ORDER TO OBSERVE TRENDS.

FIGURE 3.0.3

4.0 MISSOURI DETAIL CRIME INDEX ANALYSIS

A SERIES OF TABLES AND FIGURES SUMMARIZES CRIME ACTIVITY, CLEARANCE RATES, CRIME PATTERNS, AND ARREST ACTIVITY ASSOCIATED WITH SPECIFIC TYPES OF CRIME INDEX OFFENSES COMMITTED IN THE STATE OF MISSOURI. DETAIL ANALYSIS IS PROVIDED ON THE FOLLOWING TYPES OF CRIME:

- MURDER
- FORCIBLE RAPE
- ROBBERY
- AGGRAVATED ASSAULT
- BURGLARY
- THEFT
- MOTOR VEHICLE THEFT
- ARSON

4.1 MURDER

DEFINITION

Murder and non-negligent manslaughter are the willful killing of one human being by another. Not included in this offense classification are deaths caused by negligence, suicide, accident, justifiable homicide (the killing of a felon by a peace officer in the line of duty or a private citizen during the commission of a felony), and attempts to murder (these are classified as aggravated assaults). Murder offenses are reported on a per victim basis.

2001 SUMMARY ANALYSIS

- There were 399 murders reported during 2001.
- In 2001, one murder occurred every 22.6 hours.
- Murder accounted for 0.1 percent of the Total Crime Index and 1.3 percent of all Violent Index offenses.
- The murder rate per 100,000 population was 7.2 in 2001.
- In 2001, 68.2 of every 100 murders were cleared by arrest or exceptional means.
- 453 persons were reported arrested for murder in 2001. Of these, 92.9 percent were adults and 7.1 percent were juveniles. Of those arrested, 87.4 percent were male and 12.6 percent were female.
- Of the murder victims reported, 76.2 percent were male and 23.8 percent were female. Of the total, 83.4 percent were adults, 12.2 percent were juveniles, and 4.4 percent of the murder victims had an unknown age.
- A firearm was used by 59.7 percent of the offenders associated with murders and 9.6 percent of the offenders used a knife.

MURDER SUMMARY: 2000 and 2001

Year	Number of Estimated Offenses	Rate per 100,000 Population
2000	350	6.3
2001	399	7.2
Percent of Change	14.0	14.3

¹ Victim data were obtained from the UCR Supplemental Homicide Report. The total number of victims in this table does not correspond to the 399 murders reported in 2001 because law enforcement agencies report murder offenses on a separate form entitled the Return A. Discrepancies may occur as a result of an agency updating or adjusting only the Return A.

FIGURE 4.1.1

4.2 FORCIBLE RAPE

DEFINITION

Forcible rape is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force also are included. However, statutory rape (without force), sex attacks on males, and other types of sex offenses are not included in this category. Forcible rape offenses are reported on a per victim basis.

2001 SUMMARY ANALYSIS

- There were 1,396 rapes reported during 2001.
- In 2001, one rape occurred every 6.4 hours.
- Rape accounted for 0.5 percent of the Total Crime Index and 4.5 percent of all Violent Index offenses.
- The rape rate per 100,000 population was 25.2 in 2001.
- Rape by force constituted 90.2 percent of the estimated rapes while attempted rapes accounted for 9.8 percent.
- In 2001, 45.8 of every 100 rapes were cleared by arrest or exceptional means.
- 618 persons were reported arrested for rape in 2001.
- Of those persons arrested for rape in 2001, 86.1 percent were adults and 13.9 percent were juveniles.

FIGURE 4.2.1

4.3 ROBBERY

DEFINITION

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force. Robbery offenses are reported on an incident-by-incident basis.

2001 SUMMARY ANALYSIS

- There were 7,802 robberies reported during 2001.
- In 2001, one robbery occurred every 1.1 hours.
- Robbery accounted for 2.8 percent of the Total Crime Index and 24.9 percent of all Violent Index offenses.
- The robbery rate per 100,000 population was 140.8 in 2001.
- In 45.7 percent of all robberies, a firearm was used.
- Street / Highway robbery was the most prevalent class of robbery accounting for 61.5 percent of all such offenses.
- In 2001, \$11,143,788 in property / cash was stolen due to this offense.
- In 2001, 24.5 of every 100 robberies were cleared by arrest or exceptional means.
- 2,551 persons were reported arrested for robbery in 2001. Of these, 80.3 percent were adults and 19.7 percent were juveniles. Of those arrested, 90.3 percent were male and 9.7 percent were female.

FIGURE 4.3.1

4.4 AGGRAVATED ASSAULT

DEFINITION

Aggravated assault is an unlawful attack or attempted attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults or attempted assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under this category of offense. Aggravated assault offenses are reported on a per victim basis.

2001 SUMMARY ANALYSIS

- There were 21,674 aggravated assaults reported in 2001.
- In 2001, one aggravated assault occurred every 24.6 minutes.
- Aggravated assault accounted for 7.9 percent of the Total Crime Index and 69.3 percent of all Violent Index offenses.
- The aggravated assault rate per 100,000 population was 391.5 in 2001.
- In 2001, a firearm was used in 20.1 percent of the cases.
- In 2001, 58.8 of every 100 aggravated assaults were cleared by arrest or exceptional means.
- 12,043 persons were reported arrested for aggravated assault in 2001. Of these, 89.6 percent were adults and 10.3 percent were juveniles. Of those arrested, 82.0 percent were male and 17.9 percent were female.

FIGURE 4.4.1

4.5 BURGLARY

DEFINITION

Burglary is the unlawful entry or attempted unlawful entry of a structure to commit a felony or a theft. Burglary offenses are reported on an incident-by-incident basis.

2001 SUMMARY ANALYSIS

- There were 43,367 burglaries reported during 2001.
- In 2001, one burglary occurred every 12.2 minutes.
- Burglary accounted for 15.8 percent of the Total Crime Index and 17.8 percent of all Property Index offenses.
- The burglary rate per 100,000 population was 782.6 in 2001.
- In 69.8 percent of all burglaries a residential dwelling was involved and in 64.3 percent forcible entry was used.
- In 2001, \$61,844,799 in property / cash was stolen in 2001 due to this offense.
- In 2001, 15.2 of every 100 burglaries were cleared by arrest or exceptional means.
- 6,580 persons were reported arrested for burglary in 2001. Of these, 73.5 percent were adults and 26.5 percent were juveniles. Of those arrested, 90.9 percent were male and 9.1 percent were female.

BURGLARY SUMMARY: 2000 and 2001

FIGURE 4.5.1

4.6 THEFT

DEFINITION

Theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Attempted thefts also are included. This category includes crimes such as shop-lifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts or accessories, bicycle thefts, etc., in which no use of force, violence, or fraud occurs. It does not include embezzlement, "con" games, forgery, or worthless checks. Motor vehicle theft also is excluded inasmuch as it is a separate crime index offense. Theft offenses are reported on an incident-by-incident basis.

2001 SUMMARY ANALYSIS

- There were 169,086 thefts reported during 2001.
- In 2001, one theft occurred every 3.1 minutes.
- Theft accounted for 61.6 percent of the Total Crime Index and 69.5 percent of all Property Index offenses.
- The theft rate per 100,000 population in 2001 was 3,049.7.
- In 2001, 42.4 percent of all thefts involved the taking of vehicle parts / accessories or other types of property from a vehicle.
- Due to this offense, \$96,746,186 in property / cash was stolen in 2001.
- In 2001, 18.3 of every 100 thefts were cleared by arrest or exceptional means.
- 33,474 persons were reported arrested for theft in 2001. Of these, 75.8 percent were adults and 24.2 percent were juveniles. Of those arrested, 64.8 percent were male and 35.2 percent were female.

FIGURE 4.6.1

4.7 MOTOR VEHICLE THEFT

DEFINITION

Motor vehicle theft is the theft or attempted theft of a motor vehicle. By definition, a motor vehicle is a self-propelled vehicle that runs on the surface and not on rails. Motor vehicles include automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, etc. Motor vehicle theft offenses are reported on a per vehicle basis.

2001 SUMMARY ANALYSIS

- There were 28,329 motor vehicle thefts reported during 2001.
- In 2001, one motor vehicle theft occurred every 18.7 minutes.
- Motor vehicle theft accounted for 10.3 percent of the Total Crime Index and 11.6 percent of all Property Index offenses.
- The motor vehicle theft rate per 100,000 population was 510.8 in 2001.
- The cost of vehicles stolen in 2001 was \$170,456,225.
- In 2001, 16.2 of every 100 motor vehicle thefts were cleared by arrest or exceptional means.
- 3,932 persons were reported arrested for motor vehicle theft in 2001. Of these, 65.5 percent were adults and 34.5 percent were juveniles. Of those arrested, 82.8 percent were male and 17.2 percent were female.

2001	6,017.02	(See Note 4)
2001 TOTAL STATE LOSS³ = \$170,456,225		

¹The dollar loss per incident is calculated using only those motor vehicle theft offenses for which law enforcement agencies reported an actual monetary loss.

²The estimated percent recovered is calculated using those motor vehicle theft offenses in which a motor vehicle is stolen locally and is recovered either locally or otherwise.

³Property loss was calculated by multiplying the total dollar loss per offense by the number of such offenses in 2001.

⁴Due to inclusion of State agency data, percentage cannot be calculated.

FIGURE 4.7.1

4.8 ARSON

DEFINITION

Arson is defined by the Uniform Crime Reporting Program as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded. Arson offenses are reported on an incident-by-incident basis.

2001 SUMMARY ANALYSIS

- There were 2,552 arsons reported during 2001.
- In 2001, one arson occurred every 3.1 hours.
- Arsons accounted for 0.9 percent of the Total Crime Index and 1.0 percent of all Property Index offenses.
- The arson rate per 100,000 population in 2001 was 46.0.
- Residential dwellings accounted for 37.8 percent of all types of property destroyed by arson. Motor vehicles accounted for 33.2 percent.
- Arson accounted for \$19,536,815 in property loss in 2001.
- In 2001, 16.8 of every 100 arsons were cleared by arrest or exceptional means.
- 596 persons were reported arrested for arson in 2001. Of these, 55.9 percent were adults and 44.1 percent were juveniles. Of those arrested, 84.4 percent were male and 15.6 percent were female.

5.0 MISSOURI DOMESTIC VIOLENCE ANALYSIS

THIS SECTION PRESENTS DATA ON DOMESTIC VIOLENCE ACTIVITY IN MISSOURI. DETAIL ANALYSIS IS PROVIDED ON:

- DOMESTIC VIOLENCE INCIDENTS
- DOMESTIC VIOLENCE RELATED HOMICIDES

5.1 DOMESTIC VIOLENCE RELATED INCIDENTS

DEFINITION

Domestic violence incidents are reported whether or not an arrest is made and include any dispute arising between spouses, former spouses, persons with child(ren) in common regardless of whether they reside together, persons related by blood, persons related by marriage, non married persons currently residing together, and non married persons who have resided together in the past. Domestic violence incidents are reported when an officer believes a dispute crosses an abuse threshold as indicated by harassment, stalking, coercion, assault, sexual assault, battery, or unlawful imprisonment. Domestic violence incidents are reported by the highest ranked relationship between victim and offender, regardless of the number of persons or potential multiple relationships present during an incident.

2001 SUMMARY ANALYSIS

- A total of 37,346 domestic violence incidents were reported in 2001.
- In 2001, 9,225 domestic violence incidents involving spouses were reported.
- There were 7,691 domestic violence incidents involving persons residing together in 2001.
- In 2001, 4,637 domestic violence incidents involving blood relatives were reported.

TABLE 5.1.1

5.2 DOMESTIC VIOLENCE RELATED HOMICIDES

DEFINITION

Domestic violence related homicides are the willful killing of one human being by another and the victim and offender are related by blood, related by marriage, reside together, have resided together in the past, or are romantically involved. Suicides following domestic violence homicides are not included. Domestic violence related homicides are reported on a per victim basis.

2001 SUMMARY ANALYSIS

- There were 50 domestic violence related homicides reported during 2001.
- Wives were killed in 20% of all domestic violence related homicides.
- Girlfriends were killed in 18% of all domestic violence related homicides.

**DOMESTIC VIOLENCE RELATED HOMICIDES

TABLE 6.0.2

7.0 MISSOURI LAW ENFORCEMENT OFFICERS KILLED

A SERIES OF TABLES AND FIGURES ARE PRESENTED RELATED TO THE NUMBER OF SWORN LAW ENFORCEMENT OFFICERS KILLED IN THE LINE OF DUTY IN THE STATE OF MISSOURI. THE PURPOSE OF THESE DISPLAYS IS TO PROVIDE AN APPRECIATION OF THE EXTENT AND NATURE OF THIS SERIOUS PROBLEM AND TO INCREASE THE AWARENESS OF THE SACRIFICE MADE BY THE LAW ENFORCEMENT COMMUNITY IN PROTECTING THE LIVES, RIGHTS, AND PROPERTY OF MISSOURI CITIZENS.

7.0 MISSOURI LAW ENFORCEMENT OFFICERS KILLED

The information in this section is based on monthly reports submitted by law enforcement agencies to Missouri's Uniform Crime Reporting Program. Additional information on officers killed also was obtained from field investigations conducted by the FBI and reported in the *Law Enforcement Officers Killed and Assaulted* publications. Officers killed in the line of duty include those officers killed by felonious acts, as well as by accident, or negligence. Excluded from this section are fatalities resulting from activities not within the official realm of law enforcement duties or deaths attributed to natural causes. It should be noted that this section contains statistics relative to felonious and accidental, line-of-duty deaths of duly sworn Federal, State, and local law enforcement officers having full arrest powers.

2001 SUMMARY ANALYSIS

- In 2001, four officers were killed feloniously and four were killed accidentally in the line of duty in the State of Missouri.
- Since 1992, 33 officers have been killed in the line of duty. Of these, 15 or 45.5 percent were killed by felonious acts and 18 or 54.5 percent were killed in accidents or by negligence.

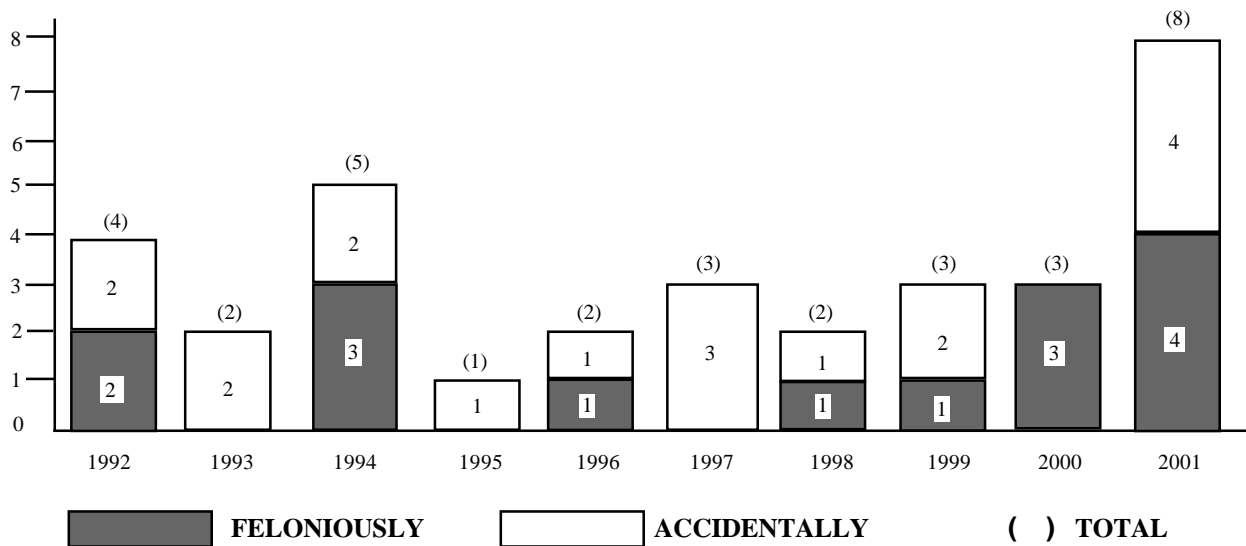

FIGURE 7.0.1

8.0 MISSOURI LAW ENFORCEMENT OFFICERS ASSAULTED

A SERIES OF TABLES AND FIGURES ARE PRESENTED ON SWORN LAW ENFORCEMENT OFFICERS ASSAULTED IN THE LINE OF DUTY IN THE STATE OF MISSOURI. THESE DISPLAYS HAVE BEEN INCLUDED TO PROVIDE A BETTER PERSPECTIVE OF THE RISKS WHICH LAW ENFORCEMENT OFFICERS FACE IN PERFORMING THEIR DUTIES AND TO ASSIST IN FORMULATING POLICIES AND PROCEDURES WHICH MAY REDUCE THESE RISKS IN THE FUTURE.

8.0 MISSOURI LAW ENFORCEMENT OFFICERS ASSAULTED

Data in this section were based on monthly reports of officer assaults submitted by law enforcement agencies to Missouri's Uniform Crime Reporting Program. Officer assaults are defined as any unlawful attack by a person on a law enforcement officer in the performance of his / her duty. Officer assaults include those assaults which result in serious injury to the officer, all assaults in which the assailant used a weapon which could have caused serious injury or death, and assaults on officers beyond mere verbal abuse or minor resistance to an arrest. Assaults resulting in the death of a law enforcement officer are not included in this section, but can be found in Section 7.0 of this report. Assaults committed on federal law enforcement officers in the State of Missouri are not included in this section.

2001 SUMMARY ANALYSIS

- There were 2,173 officer assaults reported during 2001.
- For every 100 officers in the State of Missouri, there were 22.7 assaults in 2001 compared to 20.7 in 2000.
- Of the 2,173 officer assaults in 2001, 486 or 22.4 percent resulted in injury to an officer.
- One officer was assaulted in the State every 4.0 hours in 2001. In addition, one assault resulting in the injury of an officer occurred every 18.1 hours.
- In 2001, the clearance rate for officer assaults in the State was 90.9 compared to 92.5 in 2000.
- In 2001, 80.5 percent of all assaults on officers involved physical force and 19.5 percent of the assaults involved a weapon.
- Of all officer assaults in 2001, 74.5 percent occurred from 4:00 p.m. through 3:59 a.m.
- The situation resulting in the greatest number of officer assaults in 2001 was disturbance calls accounting for 28.4 percent of the total. Attempting to make an arrest accounted for 22.0 percent of the officer assault cases.

MISSOURI LAW ENFORCEMENT ASSAULT CLOCK¹

2001

¹ The Law Enforcement Assault Clock should be viewed with care. It is designed to convey annual reported officer assault activity by showing its relative frequency of occurrence. This method of display should not be taken to imply a regularity in the commission of officer assaults; rather it represents the annual ratio of officer assaults to fixed time intervals.

FIGURE 8.0.1

MISSOURI LAW ENFORCEMENT OFFICERS ASSAULTED SUMMARY

2000 AND 2001

Year	Number of Assaults	Assaults/¹ 100 Officers	Assault Clearance Rate
2000	2,173	22.7	90.9
2001	2,608	13.5	88.3
Percent of Change	+ 20.0	-40.4	- 2.9

¹Prior to 2001, assaults per 100 officers were based on estimates from data of agencies reporting a full 12 months of officer assault activity. In 2001, this rate was based on officer assault activity reported to the Missouri UCR Program.

9.0 MISSOURI LAW ENFORCEMENT EMPLOYMENT

A SERIES OF TABLES PRESENTS DATA ON LAW ENFORCEMENT PERSONNEL RESOURCES IN THE STATE OF MISSOURI. THE PURPOSE OF THESE DISPLAYS IS TO PROVIDE AN ASSESSMENT OF THE AMOUNT AND GENERAL COMPOSITION OF LAW ENFORCEMENT RESOURCES AVAILABLE IN THE STATE.

9.0 MISSOURI LAW ENFORCEMENT EMPLOYMENT

Data in this section are drawn from annual reports on employment submitted by law enforcement agencies to Missouri's UCR Program. Employment figures include full-time sworn officers with full arrest powers, and civilian employees an agency has on its payroll as of October 31 of each year. They do not include part-time or auxiliary officers. It must be noted that this section does not include employment data for federal law enforcement agencies whose jurisdictional responsibilities encompass the State of Missouri.

2001 SUMMARY ANALYSIS

- Law enforcement agencies reported 19,288 persons employed on a full-time basis in 2001.
- Of the 19,288 persons who were full-time employees of Missouri law enforcement agencies, 70.1 percent were sworn officers and 29.9 percent were civilians.
- There were 2.4 sworn officers per 1,000 population in the State of Missouri in 2001.

TABLE 9.0.4

10.0 MISSOURI LAW ENFORCEMENT AGENCY EMPLOYMENT/ASSAULT ANALYSIS

A SERIES OF TABLES SUMMARIZES THE NUMBER OF LAW ENFORCEMENT EMPLOYEES AS WELL AS ASSAULTS ON SWORN PERSONNEL ASSOCIATED WITH LAW ENFORCEMENT JURISDICTIONS THAT REPORTED TO MISSOURI'S UNIFORM CRIME REPORTING PROGRAM. THESE DATA DISPLAYS PROVIDE AN OVERVIEW OF LAW ENFORCEMENT PERSONNEL RESOURCES AND THE PROBLEM OF OFFICER ASSAULTS WITHIN MISSOURI COMMUNITIES.

10.0 MISSOURI LAW ENFORCEMENT AGENCY EMPLOYMENT / ASSAULT ANALYSIS

Data in this section are drawn from monthly and annual reports submitted by law enforcement agencies to the Missouri UCR Program. Program participants report officer assault activity on a monthly basis. Officer assaults are defined as the unlawful attack by a person on a law enforcement officer in the performance of his / her duty. Officer assaults include those which result in a serious injury to the sworn officer, all assaults in which the assailant used a weapon which could have caused serious injury or death, and assaults on officers that were beyond mere verbal abuse or minor resistance to an arrest. Assaults resulting in the death of a law enforcement officer are not included but can be found in Section 7.0 of this report.

Employment information is reported on an annual basis by UCR participants. It reflects a count of full-time sworn officers with full arrest powers and civilian employees the agency has on its payroll as of October 31 of each reporting year. It does not include part-time employees or auxiliary officers.

Population figures in this section are estimates based on the last census taken by the U.S. Census Bureau and represent the population associated with the reporting agency's jurisdiction. For rural counties, the figures represent the jurisdiction normally covered by sheriff's departments and/or county police departments. These population figures are computed by subtracting the population of all incorporated municipalities within a county having their own law enforcement agencies from the total population of the county.

¹ Total population includes only those jurisdictions submitting employment data to the UCR Program in 2001.

² Number of officers associated with a reporting agency in relation to the jurisdictional population. Other law enforcement agencies (such as the Missouri State Highway Patrol) may have officers assigned to the same jurisdiction. A dash indicates a value was not computed because the agency reported no employment data to the UCR Program during 2001.

³ With the exception of state agencies, Number of Index Crimes (see Glossary) in a political subdivision in relation to uniform officers employed by the primary law enforcement agency of that political subdivision. For state agencies, Number of Index Crimes reported by a state agency in relation to number of uniform officers employed by that state agency. A dash indicates a value was not computed because the agency reported less than 12 months of Index Crime data or did not report employment data to the UCR Program during 2001.

⁴ A dash indicates a value was not computed because the agency reported no assault data to the UCR Program during 2001.

TABLE 10.0.1

GLOSSARY

GLOSSARY

ADULT: A person 18 years of age or older.

ARREST: Taking into physical or other legal custody for committing an offense in the local reporting jurisdiction. Arrests for all criminal offenses are scored. Arrests for ordinance violations are included. Arrests for traffic offenses, with the exception of driving under the influence of intoxicants and arrests in connection with negligent manslaughter in traffic accidents, are not scored. Included are those persons arrested but released without being formally charged.

ASSAULT: Officer assaults are defined as any unlawful attack by a person on a law enforcement officer who is in the performance of his / her duty. Officer assaults include those which result in serious injury to the sworn officer, all assaults in which the assailant used a weapon which could have caused serious injury or death, and assaults on officers that were beyond mere verbal abuse or minor resistance to an arrest.

ASSAULTS PER 100 OFFICERS RATE: This rate is an indicator of reported officer assault activity standardized by the number of officers employed by the agencies reporting the activity. The officer assault rate formula is:

$$\frac{\text{Number of Officer Assaults} \times 100}{\text{Number of Law Enforcement Officers Employed}}$$

Prior to 2001, assaults per 100 officers were based on estimates from data of agencies reporting a full 12 months of officer assault activity. In 2001, this rate was based on officer assault activity reported to the Missouri UCR Program.

ASSIGNMENT: These categories identify the specific assignment of an officer at the time of the assault. Two-Man Vehicle and One-Man Vehicle pertain to uniformed officers on patrol. Special Assignment pertains to those non-uniformed officers functioning as detectives or on special assignment. Other Assignment pertains to those officers assaulted while functioning in some other capacity, such as foot patrol, off-duty, etc. The term "assisted" refers to law enforcement assistance only.

CLEARANCE: The resolution of a criminal offense or an assault on an officer by the arrest, charging, and turning over to the court for prosecution one or more persons alleged to have committed a crime or assault on an officer. An offense also can be cleared by exceptional means when the law enforcement agency has: 1) established the identity of the offender, 2) has enough information to support an arrest, charge, and prosecution in court, 3) the exact location of the offender is known so that he / she could be taken into custody, and 4) there is some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender, (ex., offender dies).

CLEARED OFFENSES ONLY JUVENILES: The number of clearances for an offense in which only juveniles were arrested or were identified as the offender but, for some valid reason, could not be arrested divided by the total number of clearances for that offense expressed as a percentage. The formula is:

$$\frac{\text{Number of Offenses Cleared Involving Only Juveniles}}{\text{Number of Clearances}} \times 100$$

CLEARANCE RATE (Assault on an Officer): The number of clearances divided by the total number of assaults, expressed as a percentage. The formula is:

$$\frac{\text{Number of Clearances}}{\text{Number of Assaults}} \times 100$$

CLEARANCE RATES (Offenses): The number of clearances divided by the total number of offenses, expressed as a percentage. The formula is:

$$\frac{\text{Number of Clearances}}{\text{Number of Offenses}} \times 100$$

CRIME INDEX: The Crime Index is the sum of the eight major offenses used to indicate the occurrence of crime in the United States. They were selected because of their frequency of occurrence and because they are most likely to be reported to a law enforcement agency. The eight offenses are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. The first four make up the Violent Crime Index and the last four make up the Property Crime Index. Definitions of each of the offenses making up the Crime Index are provided in the section entitled "Missouri Detail Crime Index Analysis". In addition, refer to Crime Index Offense in this section for an explanation of how each type of offense is reported to the UCR Program.

CRIME INDEX OFFENSE: In the UCR Program, the offenses of murder, forcible rape, and aggravated assault are crimes against persons. For these crimes, one offense is counted for each victim. Robbery, burglary, theft, motor vehicle theft, and arson are crimes against property. For these crimes, with the exception of motor vehicle theft, one offense is counted for each distinct operation. In the case of motor vehicle theft, one offense is counted for each stolen vehicle.

CRIME INDEX OFFENSE ESTIMATES: Estimation routines were used in the Digest to identify the actual number of index crimes occurring in the State on an annual basis. They are designed to compensate for non-reporting and incomplete reporting of such offenses by Missouri law enforcement agencies. The following procedures and formulas were used to obtain statewide crime index offense estimates:

- Law enforcement agencies in the State of Missouri were categorized into Groups. The following categories were used:
 - Municipal agency - 250,000 and over
 - Municipal agency - population 100,000 - 249,999
 - Municipal agency - population 50,000 - 99,999
 - Municipal agency - population 25,000 - 49,999
 - Municipal agency - population 10,000 - 24,999
 - Municipal agency - population 2,500 - 9,999
 - Municipal agency - population under 2,500
 - Rural Sheriff's Department
 - Suburban Sheriff's Department and County Police
- For those law enforcement agencies within a group reporting six months or more, a yearly estimate of their crime index offenses was obtained using the following formula:

$$\frac{\text{Crime Index Offenses Reported}}{\text{No. of Months Reported}} \times 12 = \text{Yearly Crime Index Offenses}$$

- For each group, the yearly crime index offenses for all law enforcement agencies reporting six months or more and their jurisdiction's population were summed and the following group crime index rate was computed.

$$\frac{\text{Sum of Rpt. Agency's Yearly Crime Index Offenses}}{\text{Sum of Rpt. Agency's Population}} = \text{Group Crime Index Rate}$$

- For those law enforcement agencies reporting less than six months or no activity at all within a group, their yearly crime index offenses were computed using the following formula:

$$\frac{\text{Law Enforcement Agency Population}}{\text{Group Crime Index Rate}} \times \text{Yearly Crime Index Offenses}$$

- Yearly crime index offenses computed above for all Missouri law enforcement agencies were then summed in order to obtain a statewide yearly crime index offense estimate for use in this Digest.

No estimation routines were used in data displays identifying specific law enforcement agency's yearly crime activity in the Digest. In these data displays, only crime activity reported to the UCR Program is displayed.

EMPLOYMENT: The number of persons, either sworn officers with full arrest powers or civilians, working in a full-time capacity and appearing on the payroll of a Missouri law enforcement agency as of October 31 of a reporting year.

INDEX CRIMES: Index Crimes are the eight major offenses used to indicate the occurrence of crime in the United States. They were selected due to their frequency of occurrence and because they are most likely to be reported to a law enforcement agency. The eight offenses are: murder, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson.

INDEX CRIMES PER OFFICER RATE: This rate indicates the number of index crime incidents in a community in relation to the law enforcement agency's sworn officer resource availability. The formula is:

$$\frac{\text{Number of Index Crimes}}{\text{Number of Law Enforcement Officers Employed}}$$

JUVENILE: A person under 18 years of age.

JUVENILE ARREST: Juvenile arrests do not include law enforcement contacts with juveniles where no offense has been committed. Juveniles taken into custody for their own protection, such as in neglect cases, are not scored since they have not committed any crime.

OFFICERS PER 1,000 POPULATION RATE: This rate is an indicator of a law enforcement agency's sworn officer resource availability in relation to the population of the community it serves. The formula is:

$$\frac{\text{Number of Officers Employed} \times 1,000}{\text{Community Population}}$$

PERCENT CHANGE: The formula is:

$$\frac{\text{Value in Current Period} - \text{Value in Base Period}}{\text{Value in Base Period}} \times 100$$

POPULATION: Total number of persons residing in a jurisdiction based on United States Census data.

QUARTILE: The value marking the boundary between two consecutive intervals in a frequency distribution of four intervals with each containing one quarter of the total population.

RATE PER 100,000 POPULATION: Rates per 100,000 population are indicators of activity standardized by the population of those law enforcement agencies associated with the activity. Three types of rates are provided: statewide crime index offense rates, reporting agency crime index offense rates, and arrest rates.

The statewide offense rate formula is:

$$\frac{\text{Number of Offenses Reported} \times 100,000}{\text{Population of all Agencies Reporting}}$$

The reporting agency offense rate formula is:

$$\frac{\text{Number of Offenses Reported} \times 100,000}{\text{Population of Reporting Agency(ies)}}$$

The arrest rate formula is:

$$\frac{\text{Number of Arrests Reported} \times 100,000}{\text{Population of Reporting Agency(ies)}}$$

STRONG ARMED ROBBERY: A robbery wherein no weapons were used but tactics (limited to the use of personal weapons such as hands, arms, feet, fists, teeth, etc.) were employed to deprive the victim of his / her property.

TIME SERIES: Time-series analysis was used in the Digest to forecast future crime and arrest activity. With this technique, data for past periods were used as the basis for projecting levels of future activity. Ten years of past data were used to make these projections.

Crime and arrest rates on a per 100,000 population basis were used in making the forecasts. These rates reflect crime and arrest activity in relation to population.

The technique used to project crime and arrest activity was Exponential Smoothing (available through the SAS Econometrics and Time Series software package). Use of this technique took into consideration the limited number of data points in the time series, as well as whether or not the time series was best characterized as constant, linear, or non-linear. In applying the smoothing technique, greater weight was given to the more recent data values than to the earlier data values when projecting future levels of activity.
